*Mantras and hymns for inner journeys
and deep insights.*

Take Me to the Forest

This is song about taking a breather, heading out into nature, reconnecting with the forest, our original home. Written on our wedding anniversary in Järna, a beautiful area in Sweden where holistic therapy is held in high regard, of course we feel right at home there.

Om Sri Aranyani
Om Sri Aranyani
Om Sri Aranyani
Om Sri Aranyani

Take me to the forest
I really wanna go there
'cause I'm kind of tired
so take me to the forest
Been living in my head, I'm longing for a
friend
Take me to the forest

Take me to the Bhakti
They told me I need Shakti
to sit down by my side
With her I cannot hide
I don't know where to go, but I feel I'm in a
flow so
Take me to the Bhakti

In the silence the answer will arise
In the silence I look up to the sky

All this peace and quiet
Makes me wanna start a riot
But I guess I gotta try it
Although I don't really buy it
I'm feelin' like a child, all my senses running
wild
In the peace and quiet

In the silence the answer will arise
In the silence I look up to the sky

Now I'm in the sky and the clouds are
looking nice
They're looking kind of yummy when I'm
breathing with my tummy
Didn't know it from the start, there's a feeling
in my heart
I will let it fly like the bird's up in the sky
Singin' 'bout the forest, singin' 'bout the
forest

In the silence the answer will arise
In the silence I look up to the sky
In the silence the answer will arise
In the silence I look up to the sky
